Yes. They are already moving ahead with it.

Ok...please check in with Patti when you can to make sure she is ok with where things are at. Also, can we assume ORD is fine with the field site change?

Hi Douglas,

Thanks for the info you left in your voicemail. Since this is your last day for a week, I didn't want to interrupt what will probably be a busy day for you. I think the package achieved the purpose Patti had in mind. I didn't think it really needed to go all the way to Shaun & Howard for concurrence because Deb and Joan were the people who expressed the concerns to Patti over having Dewey Burdock as the field site. Since they both concurred on the package, I think our job is done here.

So sorry it was such an irregular thing. It took much more of our time than it should have to achieve Patti's goal. She was getting ready to leave the country for an extended mission trip so she was probably rushing to get things wrapped up before she left. She will be gone a month or more. So I think we can put this to rest.

Thanks for all you did to get it moving to the people who needed to see it! I hope your days off are for fun with the family.
